

**PYTANIE OD OFERENTA z dnia 11.12.17r.:**

Two questions about data and documents.

The first:

6.2.2. If the Contractor has its registered office outside the territory of the Republic of Poland, instead of the documents referred to in section 6.2.1. subsection 3, it submits a document or documents issued in the country where the registered office of the company/entity is registered, issued not earlier than 6 months before the time limit for the submission of tenders, confirming that, respectively:

- 1) no liquidation procedure was opened and no bankruptcy was announced;
- 2) is not in arrears with taxes, fees, social and health security contributions or that he legally obtained a right to exempted, deferred or instalment payment of arrears or complete suspension of the execution of the decision of the competent authority;
- 3) no ban on application for the order was issued for him.

Since our headquarters is outside Poland, together with the attachment no. 1 and no. 2

We have to send updated VISURA CAMERALE and DURC? (chamber of commerce certificate and statement of correct fulfilment of welfare contribution obligations)

Here is the second:

|             |
|-------------|
| Net value   |
| Vat value   |
| Gross value |

We just have to indicate Net value?

**ODPOWIEDŹ PERINO z dnia 12.12.17r.:**

in response to question no. 2 - yes, only net value.

To question no. 1 –I do not know this document. If it contains information that we ask for in items 1, 2 and 3 - this is the most appropriate document.
